

TWP® 100 Series

TWP® 100 series is a unique combination of chemicals in a professional strength, easy to apply formula that protects and preserves all exterior woods in 5 ways:

- Water Repellent Prevents Water Absorption
- Stops U.V. Damage
- Helps Prevent Wood Rot
- Resistant to Mold and Mildew
- Easy to Apply and Maintain

Key Features

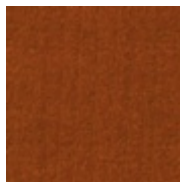

- Excellent longevity on both vertical and horizontal surfaces
- Will not peel. TWP® is a penetrating stain, not a film former
- Professional choice for all exterior wood surfaces
- Semi-transparent stain preserves natural wood color
- Repels water
- Aids in color retention
- Dry time is 4-24 hours depending on weather conditions

TWP® 100 series is not compliant in the following: California, Connecticut, Delaware, District of Columbia, Maine, Maryland, New Hampshire, New Jersey, New York, Northern Virginia, Pennsylvania, Ohio, Illinois, Massachusetts, Indiana (effective January 1, 2011), and Rhode Island. If you live in these areas please look at our 1500 series products. These are very close in color and contain less VOC's.

Available Colors:

Pecan
NEW COLOR

* Also available is **TWP® 100 Clear**, which is NOT intended for color retention, allowing the wood to gray naturally.

** Due to different substrates, wood density, sanding, wiping and application methods, and atmospheric conditions, **ALWAYS** check actual stain color for accuracy before finish work process begins. Manufacturer is not responsible for color variance following application of the product.
